Our privacy notice tells you what personal data and nonpersonal data we may collect from you, how we collect them, how we protect them, how we share them, how you can access and change them, and how you can limit our sharing of them. Definitions

'NONPERSONAL DATA' (NPD) is information that is in no way personally identifiable.

'PERSONAL DATA' (PD) means any information relating to an identified or identifiable natural person ('data subject'); an identifiable natural person is one who can be identified directly or indirectly by reference to an identifier such as a name, an identification number, location data, an online identifier, or to one or more factors specific to the physical, physiological, genetic, mental, economic, cultural, or social identity of that natural person. PD is in many ways the same as Personally Identifiable Information (PII). However, PD is broader in scope and covers more data.
